

- ☑ Safer streets for drivers and pedestrians
- ☑ Less congestion on Arvada roadways
- ☑ Without raising taxes

## Vote Yes on 3F | Safe Streets Arvada

**Voting Yes on Arvada Issue 3F will fund critical road improvements on two of the City's major east-west travel corridors—Ralston Road and West 72nd Avenue. Issue 3F projects are focused on improving safety for pedestrians and drivers and reducing congestion across Arvada—without increasing taxes.**

**Voting Yes on Issue 3F allows Arvadans to place a higher priority on public safety, reducing traffic congestion and increasing mobility—for all residents of the City.**

Two critical projects, without a tax increase:

**Issue 3F seeks voter approval of a \$79.8 million bond**, repaid out of current revenue without a tax increase, to improve safety and traffic along Ralston and West 72nd. Issue 3F is a direct response by City Council to address citizen concerns about safety and traffic.

- ☑ Placed unanimously on the 2018 ballot by Arvada City Council
- ☑ Includes transparency and accountability for taxpayers through annual reviews
- ☑ Funds will not go toward City administration and salaries
- ☑ Direct response to public feedback following extensive, citywide outreach

Focused on safety:

**Issue 3F's primary focus is the safety of Arvadans**, including pedestrians and drivers.

- ☑ Ralston Road project will include widening travel lanes, rebuilding sidewalks, enhancing pedestrian crossings and improving access to local businesses.
- ☑ Anyone who has walked or driven along Ralston Road from Garrison to Yukon streets is familiar with the unsafe pedestrian conditions there.
- ☑ West 72nd Avenue project will construct much-needed sidewalks and bike lanes and upgrade intersections with traffic-signal technology.
- ☑ West 72nd project will include an underpass at the railroad crossing near Oak Street to alleviate current and future backups along this arterial corridor.

Why bonding?

By bonding, the City is able to leverage current funding to pay off the bonds—allowing these projects **to start immediately after voter approval and move toward completion faster**, with fewer disruptions to the community.
